

MAV GRAD

HANDS-ON CLINICAL INTENSIVE

Cure the COVID crazies by enrolling in a dynamic, invigorating, in-person program.

Satisfy your desire for more hands-on practice palpating, point-finding, and connecting with patients.

Refine your technical skills and improve your diagnostic abilities with case work-ups.

Join us at CuraCore Academy, the profession's premier science-based, integrative medicine school.

16.5 CE Hours

SEE WEBSITE FOR ADDITIONAL REGISTRATION INFORMATION AND COURSE FEES
Presented and directed by Narda G. Robinson, DO, DVM, MS, FAAMA, assisted by additional faculty.

CURACORE VET

REMEMBER THAT NEW MAV GRAD EXCITEMENT?

The Medical Acupuncture for Veterinarians (MAV) course is the longest-running scientific veterinary acupuncture program in the world. As medical acupuncture evolves, so do we. And, so should you. Whether you attended an in-person Clinical Intensive or have completed eMAV™, the MAV Grad Clinical Intensive experience provides an opportunity to recharge your medical acupuncture clinical approaches.

The MAV Grad Hands-On Clinical Intensive is incorporated into our MAV student Clinical Intensive. Our Clinical Intensives are strictly limited in size and scope to provide a relaxed and focused environment. This allows you to feel at ease asking questions and refining your skills observing movement, palpating for myofascial dysfunction, and needling with precision.

We designed CuraCore® Academy's classrooms and anatomy laboratory specifically to meet the needs of current students and course graduates. With a view of Horsetooth Rock from our front door and nearby walking and biking trails, you will find yourself among friends in an environment conducive to revisiting all the reasons why it's wonderful to be a veterinarian.

REGISTRATION INCLUDES:

- 2-DAY ONSITE CLINICAL INTENSIVE (EQUINE OR SMALL ANIMAL TRACK)
- SUPERVISED, HANDS-ON SESSIONS FOR TECHNICAL MASTERY WITH WORLD-CLASS FACULTY
- GRADS ONLY SESSION WITH DR. NARDA ROBINSON
- LABORATORY MATERIALS
- ANIMAL VOLUNTEERS

ADMISSION ELIGIBILITY - Registrants must be licensed veterinarians and a graduate of the Medical Acupuncture for Veterinarians course.

I was certified 10 years ago and felt like it was time for a refresher. I am so glad I retook this course. I remembered things I had forgotten, learned many new techniques and found that I was excited again about veterinary medicine. Thank you to Dr. Robinson and her wonderful team. - Holly R. Reid, DVM, cVMA

ONSITE CLINICAL INTENSIVE SESSIONS

- Acupuncture point location review
- Myofascial palpation and movement assessment
- Neurologic evaluation (small animal)
- Electroacupuncture devices and methods
- Photomedicine devices -- compare and contrast laser and LED devices
- MAIN techniques for live animal cases
- Cases, cases, and more **CASES**

The care and planning that went into this course was obvious. I have never had so much quality hands-on practice in any course.
- Erin Bequette, DVM, cVMA

Choose Small Animal or Large Animal at registration

We highly recommend Dr. Robinson's game-changing human acupuncture atlas that is teaching acupuncturists worldwide about the clinical imperative of knowing acupuncture anatomy in detail. Veterinarians benefit by studying the basis of the transpositional point network.

Narda G. Robinson, DO, DVM, MS, FAAMA, is a leading authority on scientific integrative medicine from a One Health perspective, with over two decades of practicing, teaching, and writing about integrative medical approaches in both veterinary and human osteopathic medicine. Dr. Robinson is also the Founder, CEO, Lead Faculty, and Course Director for CuraCore VET -- the only veterinary educational institution that brings together knowledge and insights from both human and veterinary medicine.

In 1998, Dr. Robinson launched Colorado State University's first integrative medicine service and for eight years directed CSU's Center for Comparative and Integrative Pain Medicine. Dr. Robinson has taught a variety of popular, scientifically based continuing education courses, ranging from medical acupuncture and massage to botanical treatment and photomedicine. Dr. Robinson holds a Bachelor of Arts (AB) degree from Harvard/Radcliffe, a doctorate in osteopathic medicine (DO) from the Texas College of Osteopathic Medicine, and a doctorate in veterinary medicine (DVM) and master's degree in biomedical sciences (MS) from the Colorado State University College of Veterinary Medicine and Biomedical Sciences. She is a fellow within the American Academy of Medical Acupuncture (AAMA). She also serves on the American Board of Medical Acupuncture, the board-certifying organization for physician medical acupuncturists, and previously on the AAMA Board of Directors.
